CHAPTER 6   SYSTEM SUPPORT FUNCTIONS

a.   DEFINITIONS

(1)   **SYSTEM SUPPORT FUNCTION**. A system support function provides a critical set of <u>shared internal support services</u> to all components of the RFMS. Support functions are grouped in four categories: Business Analysis, Financial Management, Information System Management, and Administrative Support.

(2)   **SUPPORT FUNCTION MANAGER (SFM).** The SFM manages the RFMS support function, ensuring all support requirements are identified and addressed through the most effective and efficient means possible.

b.   BUSINESS ANALYSIS

(1)   **CONCEPTS OF OPERATIONS**

(2)   **ORGANIZATION AND STAFFING**

c.   FINANCIAL MANAGEMENT

(1)   **CONCEPTS OF OPERATIONS**
